Bow Island M.D. No. 94.

Council of the Municipal District of Bow Island No. 94 met on July 1st. Present—Hector F. J. Henderson, Deputy Mayor, Almon Grange, Councilors McGregor, Chisholm, Pool, and Hyland.

A large number of communications were dealt with, but none were of especial interest to the public, excepting one in connection with re-entrants on land.

A letter was received in connection with the above from the Acting Deputy Minister for Municipal Affairs at Edmonton, in which he enclosed a copy of the regulations affecting re-entrants as follows:—

When improvements are left upon a cancelled entry and the value thereof has been collected from the re-entrant any amount due on account of municipal or school taxes by the person entitled to the refund, may be paid to the municipality. Any balance remaining available may be refunded to the order of the former entrant.

Any claim by the Department for advances of Seed Grain, etc., will as formerly be made a first charge on any sum collected for improvements.

A claim by a municipality for arrears of taxes must be confined to the person who last held the entry and who is entitled to a refund of the value of the improvements.

When a former entrant applies for a refund he will have to produce receipts showing that the municipal and school taxes assessed against himself in respect of the quarter-section affected, have been paid up to the date of the cancellation of the entry.

All refunds will, as in the past, be dealt with here. Should any application for a refund be lodged with you it should be forwarded to the Department to be dealt with.

By order.

(Sgd.) L. Pereira.

Another letter of interest to the farmers was with reference to seed rye. The secretary of the Council recently wrote the department relative to supplying seed rye to the farmers, and drawing its attention to the fact that the Act does not allow of the Municipality to do this. The department replied stating that there was no Act giving them authority, nor did they have authority otherwise to provide seed grain for fall planting.

The following motion was then passed:—Whereas the sum of \$7900.00 is required for municipal purposes and the assessed valuation of the municipality is \$375000.15, a rate of two and one half mills be and is hereby levied to make the necessary amount required as per estimates attached as follows:—

District No. 1	\$800
" " 2	800
" " 3	360
" " 4	560
" " 5	1000
" " 6	930
Material	500
Machinery	100
Gopher poison	50
Election	20
Printing & Stationery	75
Post and mileage	200
Overseeding	200
Salaries	1250
Rents	120

The meeting then adjourned.

Town Council.

The regular meeting of the Town Council was held in the Council Chambers on Friday evening last, those present including Mayor Reid, Councilors Swennumson, Hurd, Oliver, Rolfe and Bratton.

Accounts were received and dealt with as follows:—

Metals Ltd., gas fittings	\$78.11
Citizens' Lumber Co.	31.70
Swennumson & Co.	30.05
Sundries for Gas	5.00
D. Neelham, labor	42.30
H. L. Ewing, labor	45.20
Wilmot & Henderson, livery	2.50
J. H. Martin, draying, etc.	17.35

The above were ordered paid if found correct.

Application from Geo. Ridgdale for a building permit revealed the fact that no building inspector had been appointed, and Sup't. Duffy was asked to assume the duties.

Mr. Ridgdale's application asked permission to erect a building on lot forty, block 11, near the hotel, to be used as a warehouse as an ice-house.

Permission was granted provided if complied with the by-laws of the town.

A letter was read from the Canadian Western Natural Gas Co. demanding the return of taxes paid by it to the town of Bow Island.

The letter was laid on the table for further consideration.

The mayor and secretary-treasurer were authorized by the Council to issue transfers to those persons who purchased property at the last tax sale.

Councillor Oliver reported that at the request of the Mayor he had interviewed several of the citizens and as last had succeeded in obtaining the consent of Messrs. Farns, Watts and Pollitt to act as a Board of Health.

The Council decided to adopt the report and recommend the appointment of the above for three, two and one year respectively.

The secretary reported that the town vault was looking badly and asked that it be seen to.

The matter was left in the hands of the public works committee.

Miss Baker again approached the Council by letter regarding the sidewalk south of the track and asking for a rebate on her taxes.

After former resolutions dealing with this matter had been read from the minutes the Council decided to lay the letter on the table.

The Mayor reported that an inspector in connection with the Dominion land department was down the previous week and wanted to know whether the town would care to purchase the piece of land near the park now lying vacant, about 25 acres.

It was decided on motion of Councillor Swennumson, to write the department asking that it be given the land as a grant.

A new fire by-law was then introduced in connection with setting out fire within the limits of the town, and was given its third reading.

Councillor Swennumson gave notice of introducing at the next meeting a new license by-law.

Upon motion of Councillors Hurd and Oliver the land of Geo. Redell as a water-carrier was now accepted.

Councillor Oliver called the attention of the Council to the dirty condition of Strand Street near the primary school, and stated that someone had been throwing tin cans, etc., into the street.

The public works committee was asked to look into the matter. The meeting then adjourned.

SUPREMACY OF THE ALLIED WAR COUNCILS COFFIN OF ULTIMATE SUCCESS

ALLIED ARMIES DISPLAY STEADFAST COURAGE

Are Resolute in the Determination Not To Sacrifice a Single One Of the Free Nations of the World To the Despoite Rule of Kaiserism

The supreme war council, which has had under advisement the entire war situation, has expressed in an official statement public confidence in the outcome of the war with the aid of the American forces. Complete confidence in General Poch is also expressed, and thanks are extended to President Wilson for his co-operation in the United States can bring its full American troops.

The supreme war council held its sixth session under circumstances of great gravity for the alliance of free peoples," says the statement. "The German government, relieved of all pressure on the western front by the collapse of the Russian armies and people, has concentrated all its efforts in the west. It is now seeking to gain a decision in Europe by a series of desperate and costly assaults upon the allied armies before strength effectively be lost.

The advantage it possesses in its strategic position and in its railway facilities has enabled the enemy command to gain years by its attacks. It will undoubtedly renew its attacks, and the allied nations may be still exposed to a further assault.

After a review of the whole position, the supreme war council was convinced that the allies, bearing in mind the fact that the enemy is fighting with the same fortitude as they have ever exhibited in defence of the right, will be able to resist purpose and in due course bring him to defeat. Every effort must be being done to sustain and support the armies in the field. The arrangements for using the railways have greatly improved the position of the allied armies and will be continued with the same success. The arrangements in General Poch's regard with pride and admiration the valor of the allied troops.

Thanks to the prompt and cordial cooperation of the American and the United States, the arrangements which were set on foot more than two months ago for the transportation and brigading of American troops will make it possible for the enemy to gain victory by wearing out the allied reserves before he has exhausted his own.

The supreme war council is confident of the ultimate success of the allied peoples are resolute not to sacrifice a single one of the free nations of the world to the despoite rule of Kaiserism. The supreme war council is confident of the ultimate success of the allied peoples are resolute not to sacrifice a single one of the free nations of the world to the despoite rule of Kaiserism.

The free peoples and their magnificent soldiers will have civilization.

Hail Losses

Saskatchewan's Experience Better in 1917 Than in 1916
Losses paid last year by the Saskatchewan Municipal Life Insurance Association amounted to \$1,000,000 compared with losses of \$1,350,000 in 1916, of which, however, only 40 per cent, or \$540,000, was paid. The administration costs were \$35,500 in 1917 and \$59,600 in 1916. The 1917 reserve was \$930,750 or about \$50,000 less than in the previous year. Losses were comparatively light until after the middle of August, when a heavy storm swept over the central section of the province.

At a convention of the Insurance Association held in Moose Jaw last month, motions to increase the rate from four to five cents per year were defeated, but it was resolved to adopt the flat rate of five cents per year, but under an automatic scaled increase rate. Under the latter scheme all municipalities would pay the same rate.

Under the Municipal Life Insurance Act, but any farmer may withdraw upon giving notice to the secretary-treasurer of the municipality prior to June 1 in any year.

At the convention, F. G. Hingley, secretary of the association, reported to have admitted that the system of municipal life insurance is present in use was not a real insurance but merely a pooling of funds from which claims were paid, providing there was sufficient money on hand and that it is a guarantee complete insurance for the present flat rate.

Charlie Chaplin in Heaven
Billy—Do actors and actresses go to heaven, pap?
Bobby—Yes, Billy; some do.
Billy—Do movie actors go as well, pap?
Father—Oh, yes, quite a lot—that is if they are good.
Billy—Oh! Y! Charlie Chaplin's good, won't God laugh when he walks in?

Andrew H.
Lady of House—Do you ever get tired of doing nothing?
Tramp—Oh, yes, mum; but I never complain.—Boston Transcript.

Studying Canadian Lumbering Methods

Prominent Official of India Assigned to Investigate Methods in America

F. S. Leete, a prominent official in the forestry service of India, who has been assigned by the Indian government to investigate logging methods in America, has arrived in Vancouver and will visit scenes of logging operations in British Columbia. Mr. Leete has been 26 years in the department of forests and forests of the Indian government, and has spent his whole time in the forestry of India and Burma. His official position is that of "conservator of forests," a position similar to that of chief forester in the Canadian forestry service.

Forest area amounting to approximately 250,000 square miles of timber cover in India, but in the hard-wood was the principal timber, while in Canada, the soft-wood was the principal timber. India was not trying to develop soft-wood products, but was mainly concerned with supplying the needs of her own markets for lumber.

One of the objects of Mr. Leete's visit to Canada is to study the handling logs, there being a problem in India to dispose of elephants and adopt a better plan.

The German Way

Rule of a Burgomaster to Confiscate Property of German Girls

Promised a dance, all the girls of Birlingshausen went by bright and early the other Sunday, dressing themselves in their best and producing from sundry cunning hidden places a large amount of British clothing. The girls, all smiles and adoration, were waiting for the German boys, where for two hours they vainly waited partners and musicians. At length the burgomaster arrived, and having closed the doors behind him, he ordered the girls to stand in a line, each of whom was ordered to sign her name on a sheet of official paper. The girls, however, refused to do the dance would not take place. Suddenly, the burgomaster disappeared, and the following day the girls were informed by the police on a visit to the houses of the women, and the whole of their property was seized, and confiscated. The girls, however, were not merely an official rule to secure the forbidden garments.

Zeebrugge Harbor

Practically Closed

Large Dredger Has Been Identified Inside the Breakwater

The plight of the Germans at the Belgian submarine base at Zeebrugge in consequence of the measures taken by the British to blockade the port is even more serious than has been believed heretofore. Photographs taken from the air show that the entrance of the harbor is now practically closed, and the British effort to clear the channel is being reinforced by nature.

The sunken vessel inside the break-water, which was first believed to be an enemy destroyer now appears to be a large dredge. The loss of this ship evidently has crippled the Germans in their attempts to clear the channel.

All the Work Needed Now

Farmers Should Not Hold Back any Supplies From the Market

In view of the grave need for wheat overseas, every Canadian farmer should deliver all surplus wheat to the market. Most Canadian farmers have done so, but some have held back, and this is a serious loss to the country. The wheat that can be spared is needed overseas, and it is a serious loss to the country. The wheat that can be spared is needed overseas, and it is a serious loss to the country.

One as Kindling Wood
Ideals could hardly imagine a more revolutionary proceeding in the life of a home than to chop up the household goods and burn them with kindling. Yet this is what is happening in many parts of the world.

Christian teaching. Some time ago a progressive citizen of a town in Central China told his neighbors that it was absurd to worship idols in the Buddhist temples. He told a number of others were convinced that he was right, they took community action and transformed the temple into a workshop and the idols into stove wood. An American missionary took part in the feast in which the meat was cooked over the wood.

Canada Saving Wheat

Review of Some of the Measures Taken to Provide Supplies For Our Allies

All Canadian flour mills are now producing 190 pounds (barrel) of flour from 238 pounds of wheat. Manufacture of patent flours or any division of patents is prohibited in the United States the mills are using the same process of grinding the barrel of flour. The supply of available flour has been greatly increased, and the mills are now producing 190 pounds (barrel) of flour from 238 pounds of wheat.

The Canada food board, Canadian mills are now using 800 bushels of corn per day in the manufacture of corn flour. The capacity of the mills for grinding corn is being rapidly increased, and is very soon expected to reach 20,000 bushels per day. Manufacture in Canada of Corn (or Cream of Wheat) has been prohibited. Manufacture of corn (or Cream of Wheat) has been prohibited. Manufacture of corn (or Cream of Wheat) has been prohibited.

All the bakers in Canada are under regulation of the Canada food board and are required to use at least 20 per cent. of soft wheat in their baking. Every soda biscuits at least 10 per cent. of soft wheat in their baking. Every soda biscuits at least 10 per cent. of soft wheat in their baking.

Canada is saving bread and other products, larger quantities than permitted by the Canadian food board. Many hotels, restaurants, and public buildings are required to save bread and other products, larger quantities than permitted by the Canadian food board.

A far-reaching educational campaign for decreased consumption of wheat and wheat products has been carried on. This is a campaign for increased use of vegetable products. The campaign for increased use of vegetable products. The campaign for increased use of vegetable products.

Huns Caught In Their Own Trap

They Mistook Own Aviators for a British Patrol

This is the story of a battle royal fought between British and German planes. The British pilots, who were flying over the sea, mistook the German planes for a British patrol. The British pilots, who were flying over the sea, mistook the German planes for a British patrol.

Two British officers in a fighting plane were leading a patrol along the line, when they sighted a German Halberstadt two-seater, which on their appearance, fired a green signal light. The leaders engaged the unusual performance met. In a short time, six German scouts came whirling out of the blue and joined the Halberstadt. Almost at once the other enemy aircraft dived on the sun into their comrades, whom they apparently mistook for British patrol to attack. What happened was this:

The Halberstadt had been acting as a decoy, and the British light plane had been mistaking it for a German scout. The British light plane had been mistaking it for a German scout. The British light plane had been mistaking it for a German scout.

There are a few bayonets or rifles that the soldier may have been forced to abandon or that fell from the swordcase hands as his life ebbed away. But no matter how they came to be there they must be saved.

After this came the knapsack, the canteens, the straps, the old shoes, the cap, the canteen, the overcoat, the thousand and one different things the men in the trail of thousands of men who have dashed forward in a welter where no attention can be paid to anything except to attain the object assigned and still live if possible.

Don't Eat Those Illegal

A price in a Vancouver temporary village sent a pair of boots to the cobbler for repairs. But the fellow who was mending rather freely, and with inclination for work, so the boots were not mended. The cobbler, who was mending rather freely, and with inclination for work, so the boots were not mended.

Spain claims that Charlie Chaplin is a Spaniard, who was born in the Calle de las Bueras, Madrid. His name was Jose Martinez Chaplin, who came from Asturias, and for some time kept a bar in Madrid. In 1884 he is said to have emigrated to Canada, where he became known as Charlie Chaplin.

Spain claims that Charlie Chaplin is a Spaniard, who was born in the Calle de las Bueras, Madrid. His name was Jose Martinez Chaplin, who came from Asturias, and for some time kept a bar in Madrid. In 1884 he is said to have emigrated to Canada, where he became known as Charlie Chaplin.

Gathering Up the Scraps of War

Often Enough 'Work Has to Be Carried on Under a Terrific Bombardment'

Upon the terrible fields of war, there is nothing, aside from the waste of human life, that produces a more painful impression on the occasional person who is allowed to wander over a battlefield just after the great quantities of material that he scatters about with acrimony and reckless profusion.

All this material was made through long hours of sweat and labor and toil to be used in saving the country, and here it is lying forlorn and abandoned. It is a waste of material that he scatters about with acrimony and reckless profusion.

Hardly have the troops passed forward in an attack than a second army, usually of aged territorial militia, appears on the battlefield and begins the cleaning up process.

Sometimes their companions call them the "rag pickers of the army," and sometimes the "divers" of war, but in the report, a special organization of the armies they rank as scavengers.

Their work too is often dangerous as that of the troops who dash to the front. They are not only required to handle abandoned explosives of the enemy, but they are also required to carry on their work under a terrific bombardment.

But they do it as heroically as any soldier, and they are often the first to carry the hot soup up to the fighting line. They are often the first to carry the hot soup up to the fighting line.

They are often the first to carry the hot soup up to the fighting line. They are often the first to carry the hot soup up to the fighting line. They are often the first to carry the hot soup up to the fighting line.

Premier Lloyd-George Points Out That If, For Any Cause, the Allies Fail To Succeed, This Will Be a Sorry World To Live In, Under Domination Of The Hun

Long Range Guns

Shown to U. S. General Early in 1914 by Bertha Krupp When Visiting England

The Daily Chronicle's Paris correspondent says that the long range cannons with which the Germans are bombarding Paris, were invented in 1914, by Frau Bertha Krupp von Bohlen und Lubich (principal owner of the Krupp works, Essen). "The secret," says the report, "was shown to the American when he visited Essen on an official mission. He had been taken all through the vast Krupp works escorted by a swarm of technical experts and was shown a number of the firm, and with the latter conducted the general to a secret room."

Here the visitor's attention was attracted by two immense cannons with extremely long tubes and which were pointed directly at London. Bertha said in excellent English: "These are the guns you ought to order for the defense of your country. They carry ninety miles, are guaranteed to shoot \$4,000 a round. Of course, these are only trial guns and they cannot fire more than 20 to 25 shells without they lie in ruins. You can appreciate the imaginative results which will be obtained by the nation that first employs such guns."

HEAVY SACRIFICES MADE FOR A GREAT PURPOSE AND HIGH IDEAL

HAMMER BLOWS THAT STRENGTHEN THE GOOD METAL

Premier Lloyd-George Points Out That If, For Any Cause, the Allies Fail To Succeed, This Will Be a Sorry World To Live In, Under Domination Of The Hun

Premier David Lloyd George, in replying to a toast to the success of the entente allies at the dinner of the Prime Minister of London, said that Britons have made unsurpassed sacrifices for a great purpose and a high ideal.

One of the most encouraging things that the premier continued, was the "superb valor and the trained skill with which the Americans have fought their part in the struggle and defeated the foe. It is a most encouraging thing, because there has been a great loss of these troops and we have not depended on them."

"If, for any cause the allies fail to succeed, it will be a sorry world to live in," Mr. Lloyd George said. "It is impossible to exaggerate the importance of this struggle, and the lives of generations would be threatened by the failure or triumph of our cause."

"If the Prussians should succeed in their attempt to dominate the nations into the dark dungeons of the past, it would be a world to live in. It is a world to live in. It is a world to live in."

"I have just returned from France where I met a French statesman, who had been at the battlefront some time. He has written the American fight. He was full of admiration, not only for the superb valor, but for the trained skill with which they attacked and defeated the foe."

"His report of the conduct of the battle, the courage and valor which had been in action for the first time, was one of the most encouraging things that I have heard. We know that whenever they appear in the line, they are there to win. It is worthy of the great traditions of the British Empire, and the selfless support, assistance, and encouragement to all those who are fighting for the honor of their native land."

"We have faced a great crisis. We have seen the German hordes, the hammer blows, the hammer blows, the hammer blows. There is good metal in British hearts, and there is good metal in British hearts. There is good metal in British hearts."

"Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this."

"Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this."

"Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this."

"Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this."

"Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this."

"Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this. Let us stand this, so that we may be able to stand this."

Mrs. Verma Castle is visiting in Medicine Hat during the Chautauqu.

Mr. and Mrs. W. O. Davis left on August 3rd for Creston, B.C., where Mr. Davis has taken a position in a lumber yard. Their many friends here wish them all success.

The members of the local branch of the U.P.W.A. sent away on August 3rd eighteen boxes which they have been packing for the soldiers in France.

Mrs. Jessie Hineck and daughter Ethel, who have been visiting Mrs. James Larson, left on Thursday for Edmonton.

Dr. Paterson was called a few days ago to attend Mrs. John Christopher's little baby, which is reported to have been very sick.

Mr. Fred Blanchette is now in Barons working an engineering crew.

The Old Rose Circle of the Ladies Aid held a most successful luncheon recently at the home of Mrs. Darrel Fisher.

The Ladies Aid will meet at the Glendale road room on August 15th. Everybody welcome.

The Winnifred baseball team recorded another victory on August 31st, when it played Seven Persons and won 12-5.

The youngest son of Mrs. Phil De Wald is reported to have been very sick. Dr. Paterson made a hasty call on Wednesday.

Boy G. McKee's mother from Toronto is here visiting for a few weeks.

Ed. Gosselin was requested to take an inventory of the goods in the hotel this week, the hotel being closed for three weeks for this purpose.

Mr. Darrel Fisher has been obliged to stay away from business for a few days on account of illness.

The Old Rose Circle are negotiating for a big festival on August 14th, when it is proposed to hold a big outdoor social. Watch for printed announcements. There'll be a good old time.

A. E. Tunstall and F. R. Hillis had a pleasure trip to Medicine Hat last week end.

The Blue Ribbon workers served ice cream at a pantry sale held on Saturday. Truly the Blues are workers.

Mrs. G. W. Parker gave a reception on Monday, August 5th, in honor of

the visit of Mrs. Rose of Medicine Hat, President of the Rebekah Assembly for the province of Alberta. The following members of the local Rebekah Lodge were in attendance—Mrs. H. Flett, Mrs. P. Bushing, Mrs. F. Harris, Mrs. D. Fisher, Mrs. F. Baker, Mrs. W. Dennison, Mrs. B. Colthorpe, Mrs. B. Kendall, Mrs. W. H. McCoun, and Mrs. Alfred Larsen. Mrs. Geo. Dunn was also in attendance. After a special session of the Rebekah Lodge luncheon was served at five o'clock and an extremely pleasant time was afterwards enjoyed by all.

Police Court.

Magistrate Declares Pound By-law Ultra Vires.

An interesting case and one of some importance to the farmers around was heard before Police-magistrate Brown in Bow Island on Saturday last, when Henry A. Umber was charged with illegally impounding horses the property of O. A. Lindquist, farmer, and claiming excessive damages in the amount of \$50 and pound fees to the extent of \$810, which amount was paid under protest.

P. O. McKenna represented the prosecution.

The magistrate in recording judgment found the Pound By-law of the Municipal District No. 94 ultra vires in view of the fact that it was inconsistent with the Rural Municipal Ordinance of the Province of Alberta, now known as the Municipal Districts Act. Further, the poundkeeper failed to comply with the law from the fact that he did not give notice by registered mail as provided by Sec. 209, in which he must notify the owner to apply for arbitration within three days. The impounder failed to comply with the Act, in so far that he did not state the nature of the damages as per Sec. 208, which strictly provides that in failing to do so he has no recourse for damages. In view of these facts the magistrate decided that the owner of the horses, O. A. Lindquist, should not be made to suffer any loss as there apparently was no attempt to comply with the law either by the poundkeeper or the defendant. It was therefore ordered that the monies in the hands of the poundkeeper under protest should be forthwith returned to the complainant. The magistrate also ordered that the costs of the prosecution amounting to \$11.25, should be recorded against the defendant, H. A. Umber.

Dan Pederson, Geo. Fisher, Alex Murray, and Ole Lumsden, all of Winnifred, were charged before Police-magistrate Brown on August 1st for permitting their stock to run on cultivated lands. In each case the defendants were assessed the costs of the prosecution and warned that a second offence meant a fine of fifty dollars and costs.

Henry Howe of Burdett had a similar charge preferred against him and was ordered to pay the costs.

Alex B. Canning of Grassy Lake was brought up on July 16th on a

DENTISTRY.

Dr. Agnew will remain two more weeks in Bow Island to complete work already started and will attend to any others that want to take advantage of the reduced fees.

Hotel Myrtle, Bow Island

charge of assaulting Henry B. Siskles of the same town. The case was dismissed.

Gus Brummond of Bow Island was charged on July 13th with interfering with cattle impounded by W. H. Schenert, poundkeeper and was ordered to pay the costs of court.

C. F. Henry of Bow Island and Stephen Schmidt of Prosper, both miners, were charged with failing to make monthly returns, as provided by Sec. 12 of the Mines Act. These prosecu-

tions were made following a complaint laid by the Mines Inspector, M. Johnston, and both were found guilty and fined \$5. and costs.

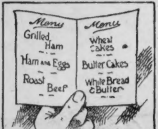

For permitting a band of sheep to wander on private property, A. Hostet, a shepherd of Burdett, was fined \$5.00 and costs.

High temperature records have been recorded in the northeastern quarter of the United States. On Pennsylvania Ave., in the national capital, it registered one day 114 degrees.
